

Notes:

1. 10-foot minimum sidewalk widths.
2. Street trees at 30 feet on-center in tree grates (trees and grates per Downtown Plan).
3. Parallel on-street parking, where right-of-way widths allow.
4. Curb bulbs at intersections and crosswalks, where approved street design allows.
5. Pedestrian-scaled lighting (lights per Downtown Plan) spaced at 30-foot intervals (between trees).
6. Other street furniture elements may be required by the Director per other adopted plans. This could include bollards, bicycle racks, newspaper racks, or other street furniture elements.
